

ALLURE COLLECTION

AN ORGANIC, NATURAL, WARM FEELING PRE-FINISHED ENGINEERED FLOOR FEATURING A SQUARE EDGE PROFILE AND AN ULTRA MATT FINISH

DURABLE, HARD-WEARING NATURAL LOOKING ENGINEERED FLOOR PRODUCED FROM PREMIUM AUSTRALIAN
HARDWOOD WITH THE LOWEST GLOSS LEVELS FOR A TRUE EYE CATCHING FINISH

NATIVE

by NS Timber Flooring

Engineered Australian Timber Flooring

Native provides that organic, natural, warm feeling. The pre-finished range features a square edge profile and an ultra matt finish, to achieve a floor that's earthy and effortless. Manufactured using a low shrinkage and eco-friendly Hevea as the core material and a tough Australian hardwood lamella for the wear layer, produces a product that's consistent in quality and structural stability. Native's construction also incorporates a licensed Valinge click system, using a single action installation method, which saves time and ensures you can enjoy your new floor instantly.

Utilising the latest in environmentally friendly UV coatings, our six coat system delivers a floor finish similar to a stylish oiled floor but with the durability and protection a UV lacquer offers. Native engineered flooring provides a practical yet stylish option suited for day-to-day use in most applications.

Also available, in addition to our Blackbutt and Spotted Gum, the Native range offers Rustic Blackbutt. A full featured floor with prominent gum veins, gum pockets, trails, burls and borer holes. The feature does not interfere with the structural integrity of the floor, but offers a glimpse of the intense life in the Australian Bush; drought, ambrosia attack and fierce wildfires are just some of the elements a tree needs to endure to produce these beautiful and interesting features. An impressive choice, adding value and character to any interior.

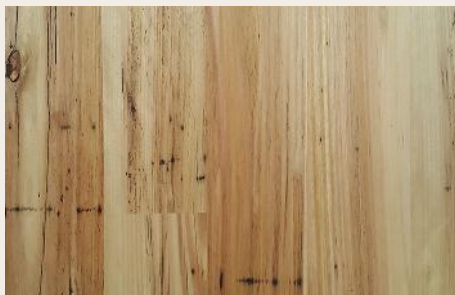

Pre-finished Species Options

Native is available in 3 different options; Blackbutt, Rustic Blackbutt and Spotted Gum.

Blackbutt

Rustic
Blackbutt

Spotted Gum
